

From Elena Talanker, Staff Engineer, Transportation Planning, NCDOT:

Here is a link to the GO!NC GIS portal, now hosting many useful GIS resources

- *GO!NC GIS portal <http://ncdot.maps.arcgis.com/home/index.html>*
- *Make sure to check [Walk through the GO!NC Portal](#) training video*
- *To see all the maps published on this portal click on the GALLERY on the top left corner of the page*
- *Note that all official publications from NCDOT GIS and other department units have NCDOT.GOV listed as publisher*
- *To find metadata and other information about each map go to*

About

and click on [More Details...](#) at the bottom of the text

All this is summarized in the [Map Viewer Quick Reference Guide](#)

As of comments and suggestions they prefer everything to filter through gishelp@ncdot.gov as mentioned on the page.

Another page I would suggest to link from the NCARPO website is our main NCDOT [Planning](#) site, it is a good resource on Long Range Planning, Prioritization and STIP materials. As I'm responsible for the majority of the context on this site, I'm trying to keep all the planning related information together and up to date.
